Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, 28-36 accumulating points value derived from a voucher code, classified in class 705, subclass 14.
 - II. Claims 18-20, 42-44, drawn to registered user details on a database, classified in class 707, subclass 1 .
 - III. Claims 21-27, 37-41, 45-56 drawn to allowing users to enter a competition in which at least one winner is selected, classified in class 705, subclass 14.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as registering the users. See MPEP § 806.05(d).
3. The inventions are distinct, each from the other because of the following reasons:
Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as allowing users to enter a competition. See MPEP § 806.05(d).

Art Unit: 3622

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Since the examiner knows from past experience that an election will not be made by telephone, this restriction is proper under MPEP 812.01.
